Smart Payment Technologies

Standalone
Feature Guide

Standalone
Where simplicity meets security

Discover the future of seamless transactions with Standalone, our **cutting-edge solution** in secure payment processing. Perfect for businesses of all sizes, Standalone offers **offline capability, multi-currency support**, and **Custom branding** options—all without the need for complex system integration. Benefit from encrypted card data, lightning-fast processing, and top-tier security while enhancing your customer experience and streamlining your operations effortlessly.

Offline Capable
Enjoy seamless service even with poor connectivity with our hassle-free deferred-auth payments and auto-retry mechanisms—driving higher acceptance.

Multi-Currency
Seamlessly switch currencies on the fly, making every payment journey with us as flexible as your next customers destination.

Make it your own
Tailor Your standalone app look and feel with Your unique colours and Logo for a seamless, on-brand customer experience.
